

STYLING PACKAGES

PACKAGE ONE - professional styling service

- Let's work together to create a look that you'll love. This option involves us chatting about your personal style to determine what your styling goals might be for your photoshoot. Soon after, I'll send you direct links to items chosen specifically for you and get your feedback so we can come up with something unique. All items are purchased by the client directly. Reviewing specific brand sizing, exchanges and return policies is the client's responsibility.
- A personalized styling consultation to determine your style and needs
- An "electronic pull" created just for you to help you choose items for your photoshoot
- Pairing advice to complete the look

PACKAGE TWO - client closet rental service

This option is great if you want to take the guessing out of choosing your own wardrobe. Avoid the hassles of online shopping, such as taxes, duties, returns, and shipping fees. I require that my clients book a fitting with me, one week prior to the scheduled session to pick items from my "Client Closet" and to make sure items fit properly. My catalogue can be found on my Instagram stories and on my Pinterest account under "Client Closet".

- A personalized styling consultation to determine your style and needs
- Your choice of clothing and accessories from my "Client Closet" for your session
- All items are returned the day of the shoot
- All items are dry-cleaned after each session by Maxine LaGarde Photography
